

VHS-350 Manual Rhinestone Setting Machine

Working with rhinestones is a breeze with the Portable VHS-350 Rhinestone HOTFIX setting machine. Simply hold the device in place and press the button to generate ultrasonic waves that attach the rhinestone to the fabric by melting the bottom layer of adhesive.

Features

- ✓ Portable
- ✓ Low electric consumption
- ✓ Easy to use control panel
- ✓ Ultrasonic handle with vacuum holder

Easily and instantly attach hotfix rhinestones to any type of fabric, including denim, belts, bags, t-shirts and more! The VHS-350 Manual Hotfix Setting Machine is the perfect choice for handling smaller jobs and adding a special touch to your screen printing and embroidery. The dials allow you to adjust the power and duration of the ultrasonic vibration according to the thickness of the fabric.
